Süreli Yayınlar
CİM Bulletin

JANUARY 1991

35 Underground Mining
Blasthole stoping for narrow vein mining; Y. Lizotte

42 Shaft extension design at the Underground Research Laboratory, Pinawa, Manitoba; G. W. Kuzyk, J.R. Morris, A. E. Ball

51 Innovation and perseverance: breaking new ground in hard-rock shaft sinking in the 1990s; M. J. Med and G. A. Speirs

58 Water problems in Saskatchewan potash mining—what can be learned from them? F.F. Prugger, A. F. Prugger

67 Surface modification of chrysotile asbestos with organic reagents: a preliminary in vitro toxicological study; F. Habashi, F. TAwadalla and M. Page

Rock Mechanics

80 Pre-mining stresses at some hard rock mines in the Canadian Shield; B. Arjang

FEBRUARY 1991

59 Exploration
Paleotectonic settings of volcanogenic massive sulphide deposits in the Dunning Zone, Newfoundland Appalachians; H. Scott Swinde

70 Regional tectonic setting and chemistry of base metal deposits in the Eastern Townships, Quebec; Michel Gauthier

80 Modelling load and product distribution in autogenous and semi-autogenous mills; pilot plant tests; Mary Geoldman, Gilles Barbery and Frédéric Flament

87 Quantitative mineralogical analysis of Co and Cu distribution in historical slags from Küre (Turkey); Eric Pirard

92 Coal Mining
Coal mining in Canada in the nineties; G.E. Davies and D. M. Parkes

Industrial Minerals

JANUARY 1991

17 Talc USA & Europe competitive markets

29 Chinese refractory raw materials in the 1990s

37 North American graphite Stability eroded by oversupply

45 Sri Lanka Freeing its mineral export potential

FEBRUARY 1991

19 Kaolin Coating clays provide optimism

39 Synthetic mullite Refractores shock absorber

47 Dimension stone evaluation From cradle to gravestone

63 Euromines in E. Europe

MARCH 1991

19 Oil well drilling Competition in a turbulent market

35 Diamonds Scintillating performance in growth & prices

49 Brake linings The past, present and future

55 Magnesia from dolomite & seawater Opening a new industry in Lebanon
**Institution of Mining and Metallurgy**

**JANUARY-APRIL 1991**

A1 The Neves-Corvo project- the successes and challenges  
D.C. Bailey and D. I. Hodson

A11 Horizontal drilling techniques in British coal mines  
P. P. Jenkins and T. G. Ball

A22 Numerical modelling for underground excavation design  
E. Hoek, M. W. Grabinsky and M. S. Diederenhs

A31 Investigation of blasting parameters to optimize fragmentation  
O. Dojcar

**APRIL 1991**

I Research on the preseparation space in hydrocyclones  
J.R. Xu, Q. Luo and J.C. Qui

II Identification of feed and simulation of industrial flotation circuits  
P. C. Kapur, A. Dey and S. P. Mehrotra

57 An investigation of sub-processes in equilibrium froths (I): the mechanisms of detachment and drainage  
V. E. Ross

58 An investigation of sub-W-processes in equilibrium froths (II): the effect of operating conditions  
D. E. Simpson, V. R. Voiler and M. G. Everett

73 An efficient algorithm for mineral processing data adjustment  
D. E. Simpson, V. R. Voiler

**International Journal of Mineral Processing**

**APRIL 1991**

97 Residence time distribution studies in a flotation column. Part 1: the modelling of residence time distributions in a laboratory column flotation cell  
C. M. Goodalland C. T. O’Connor

115 Beneficiation of calcareous phosphate rocks using dilute acetic acid solutions: optimisation of operating conditions for Reseifa (Jordan) phosphate  
S. I. Abu-Eishah, I. S. El-Jallad, M. Muthaker, M. Touqan and W. Sadeddin

127 Electroflotation of quartz fines  
D. R. Ketkar, R. Mallikarjunan and S. Venkatachalam

139 The influence of chemical additives on surface charge and hardness of hematite  
N. Pitchai, U. B. Nayakand A. K. Lahiri

**International Journal of Rock Mechanics and Mining Sciences & Geomechanics Abstracts**

**JANUARY 1991**

1 Simulation of hydraulic fracture propagation in poroelastic rock with application to stress measurement techniques  
T.J. Boone, A. R. Ingraffea and J.-C. Roegiers

15 Plasticity-based constitutive model with associated testing for joints  
C. S. Desaiand K. L. Fishman

27 Experiences with application of the NGI classification to coal measures  
P.R. Sheorey
35 Rotary drilling prediction
G. Wijk

43 Identification of nonlinear fracture properties from size effect tests and structural analysis based on geometry-dependent R.Curves
Z.P. Bazant, ft. Gettu and M. T. Kazemi

53 Overcoring in highly stressed granite-the influence of microcracking
C. D. Martin and ft. Christiansson

Technical Notes
71 High-temperature behaviour of basalts-role of temperature and strain rate on compressive strength and $K_{IC}$ toughness of partially glassy basalts at atmospheric pressure
ft. Duclos and J. Paquet

International Journal of Surface Mining and Reclamation

MARCH 1991

1 A vegetation productivity equation for reclaiming surface mines in Clay County, Minnesota
Jon Bryan Burley

7 Dispatching system evolution at Chuquicamata Mine
Lautaro Barros V.

11 Macroinvertebrate recolonization and water quality characteristics of a reconstructed stream after surface coal mining in northwestern Pennsylvania, USA
Fred J. Brenner A James Helm

17 Comparative economic analysis of transportation systems in surface coal mines
H. Sevim & G. Sharma

25 The Island Copper south wall project
ft. B. Findlay, R. B. Robertson & K.P. O’Kane

33 Percussive energy transfer in pneumatic top hammer rock drills
Wu Changming

39 Optimal production planning of opencast mines: A case from Indian mining industry
Kampan Mukherjee

45 An application of closed queueing networks theory in truck-shovel systems
George Kappas & Tuncel M. Yagulaip

Mineral and Metallurgical Processing

OCTOBER 1990

173 Molybdenite flotation from copper/molybdenum concentrates by ozone conditioning
Y. Ye, W.H. Jang, M.R. Yalamanchili and J.D. Miller

180 Selective gold flotation at Sonora Mining’s Jamestown concentrator, using Aero 5688 promoter
C. Hansen and J. Killey

185 Dissociation constant of hydrogen cyanide in saline solutions
P. Verhoeven, G. Hefter and P.M. May

189 Optimization of thickener performance
A. Ghalambor, W.E. Foreman and A. Hayatdavoudi

198 Screening of concentrates for removal of contaminants at Cyprus Thompson Creek
M.W. Harmer and J.M. Quist
201 Phosphate from wastes via acid leaching in the presence of methanol
G.M. Wilemon, R.G. Swanton, J.G. Davis and B.J. Schemer

206 An FT-IR study of calcium-exchanged montmorillonite treated with polyacrylamide and polyethylene oxide
F.J. Susko

209 Separation of non-magnetic minerals using magnetic fluids in a flow-through MHS rotor
M.S. Walker, A.L. Devemoe and W.S. Urbanski

215 Role of sodium silicate in phosphate flotation
H. Dho and I. Iwasaki

222 Uranium precipitation from eluate using hydrogen peroxide
T. Y. Yan

February 1991

1 Electrochemical behavior of arsenopyrite in alkaline media
V. M. Sanchez and J. B. Hiskey

7 Depression areas in flotation graphs produced by the adsorption of a second layer in froth flotation
C. E. Rossi, C. deArrieta, V. Ciribeni and R. J. Ferretti

16 Flotation of coarse particles in a countercurrent column cell
H. Soto and G. Barbery

22 Flotation of Chlorella vulgaris with anionic cationic and amphoteric collectors
R. W. Smith, Z. Yang, and R. A. Wharton, Jr.

27 Hypochlorite pretreatment in heap leaching of a low grade carbonaceous gold ore
M. Ahmadiantehrani, J. L. Hendrix and G. Ramirez

32 Influence of temperature on the energy efficiency of an industrial circuit processing iron ore
S. K. Kawatra and C. C. Eisele

38 Investigation to control mine dust using surfactants and a new approach for eliminating their negative effect on flotation
M. A. Cristovici

43 Silver recovery from zinc plant residues by flotation
J. Y. Kim, L. Rosato and R. W. Stanley

48 Process options and market considerations for paper grade kaolin from Minnesota resources
M. S. Prasad, M. P. Katsoulis and K. J. Reid

55 DISCUSSION: Application of bentonitic clays in suspension fertilizer formulations
N. L. Hargrett

Minerals Engineering

Special Issue

213 Gravity concentration post present and future
J. F. Turner

225 The economic impact of modern dense medium systems

245 Numerical and experimental investigations of wear in heavy medium cyclones
H. D. Zughbi, M. P. Schwarz, W. J. Turner and W. Hutton

263 The effect of underflow/overflow ratio on dens medium cyclone operation
C. J. Restarick and Z. Krnic

271 Development of a range of hydrocyclones by practice and experience
J. K. Cocks

279 Adjustable onstream classification using a two stage cylinder-cyclone
C. J. Restarick

289 Calculation of a steady state mass balance for complex hydrocyclone networks
C. J. Roldán Villasana and R. A. Williams

311 Steady-state simulation and optimization of gravity separation circuits by use of linear programming and expert systems
K. R. Anthony, J. S. J. van Deventer and M. A. Reuter

329 Modelling and simulating dense medium separation processes-a progress report
T. J. Napier-Munn

347 A mathematical model of the Duplex concentrator
M. Pearl, K. A. Lewis and P. Tucker

355 Computer optimisation of a shaking table
P. Tucker, K. A. Lewis and P. Wood

369 The shaking table concentrator-the influence of operating conditions and table parameters on mineral separation-the develop-
ment of a mathematical model for normal operating conditions
ft. J. Manser, ft. W. Barley and B.A. Wills

383 Some experiences in the design and optimisation of fine gravity concentration circuits
A. Wells

399 Contemporary practices in gravity recovery installations in the Canadian gold mining industry
J. Wells and C. Patel

411 Design and operating experience with the Golds-worthy Mining Limited BATAC jig and spiral separator iron ore beneficiation plant
D. J. Miller

437 Recent developments in spiral design, construction and application
P.O.J. Davies, R.H. Goodman and J.A. Descamps

457 Particle and fluid motion on spiral separators
A.B. Holland-Batt and P.N. Holtham

483 Shear flocculation—a review
S. Bilgen and B.A. Wills

489 Extended trials with the high tonnage multi-gravity separator
B.S.K. Chan, R.H. Mozley and G.J.C. Childs

497 GEM*SEM image analysis of cyclsizer classification
C.J. Restarick and P. Gottlieb

503 Fine coal characterisation
D. Rhodes and N.J. Miles

511 Smoothing and interpolation of float/sink data for coals
J. Abbott and N. J. Miles

Mining Engineering

JANUARY 1991

25 Maintenance preparations important for new plants
C.O. Hamilton

28 Maintenance contract on Cat 785 trucks works well at Round Mountain
J.B. Rasmussen, A.J. Douchane and F.E. Lytle

33 Computerized maintenance management information systems—A valuable tool
Walter J. Pachucki

36 Coolant management critical in today’s large diesel engines
Truman Harrington

38 Geology of the Brewer Gold Mine in South Carolina
J.W. Scheetz, J.M. Stonehouse and M.R. Zwaschka

125 Deep sea mining technology: Recent developments and future projects
A. ft. Bath

129 Concentration capacity in treating copper-cobalt and copper-zinc ores at Gecamines, Zaire
M.S. Prasad

199 Amax uses practical approach to dewatering at its Sleeper Mine—W. David Tyler and Geoff Beale

205 Inco’s cyanide removal technology working well E.A. Devuyst, G. Robbins, ft. Vergunst, B. Tandi and P. Ilamarino

207 Environmental audits: Determining the needs at mining facilities—J. N. Philbrook

210 Control of surface mine drainage at Coeur d’Alene’s Thunder Mountain Mine—R. Mohr

213 Tailings management in the Canadian Arctic: Echo Bay’s Lupin Mme—Hugh R. Wilson

215 Economic benefits gained by rock mechanics: Three case studies—J.F.T. Agopito

223 LU decomposition conditional simulations for exploring strategy evaluations
B.M. Davis and J. Wilkins

228 Effect of chemical and physical coal properties on handling behavior
B.J. Arnold

232 Development of personal diesel aerosol sampler design and performance criteria
B.K. Cantreel and K.L. Rubow

236 DISCUSSION: Paleoplacers of the Witwatersrand basin
W.E.L. Minter
134 Promising coal interface detection methods
G. L. Mowrey

139 TECHNICAL NOTE: Study of the size distribution of the Carlin Trend gold deposits
J. M. Rendu and J. Guzman

March 1991

295 Interview with Ted H. Eyde, 1991 President of the Society for Mining, Metallurgy, and Exploration

300 Geology and mineralization of the Griasberg prophyry copper-gold deposit, Irian Jaya, Indonesia
S. D. Van Nort, G. W. Atwood, T.B. Collinson, D. C. Flint and D. R. Potter

304 Precious metal deposits related to alkaline igneous rocks - A space-time trip through the Cordillera
Felix L. Mutschler, Thomas C. Mooney and D. Chad Johnson

310 Geoeconomics education in the Soviet Union
Vitaly T. Brosovich, John J. Schanz, Jr. and John E. Tilton

313 Borehole mining: Improved technology expands horizon
M. F. Dibble

325 Emission control options for mine diesels
R. W. Waytulonis

Mining Magazine

January 1991

4 Panorama
Open cast and underground mining at American Girl, California; Future in Leisure for Wheal Jane? - Carnon Consolidated's Ideas; Innovative recruitment programme at the Scuddles base-and precious-metals project, Western Australia.

9 HZL: 25 Years of Progress
HZL’s Chairman-cum-Managing Director, A C. Wadhawan, reviews the company’s past achievements and outlines future developments.

12 HZL: Technological Trends
In a wide ranging review, H.V. Paliwal describes underground mining techniques and metallurgical processes employed by Hindustan Zinc.

20 HZL: New Project
Ibrahim Ali describes the Rumpura-Agucha mine and Chanderiya smelter projects, both of which are due on-stream during 1991.

25 Gold Award Ideas
A brief survey of new improved equipment put forward for Mining Magazine’s proposed Gold Award.

33 Mining Survey
The Western World’s metal mines: the annual survey compiled by Mining Journal Research Services.

February 1991

66 Panorama
15 Mt/y low ash steam coal output from Indonesia by end-1990s?; Soft rock drilling success in U.K. gypsum mine; Attractive options for foreign investment in Bolivia.

72 Joel the pioneer
JCI’s Joel mine is exploring the frontiers of technology - its progress is important to the advancement of South African gold mining.

78 Platinum Plethora?
John Chadwick examines the South African platinum mines: existing operations are expanding, four new mines are coming on stream, and there are three further new projects.

85 R.S.A. Gold
Times are tough, but there is no shortage of exploration projects underway seeking to ensure the timely development of the next generation of South African gold mines.

92 Underground Loading and Hauling
Geoff Pearse reviews the machines which can be used to load and haul ore and waste rock in underground mines.

103 Object Oriented Simulation
As software becomes more complicated, the need for a more structured approach to software engineering increases. An innovative technique is described.
MARCH 1991

128 Panorama
P.T. Inco's, Soroakoao nickel mine and smelting in Indonesia continues to grow in stature, with recent plant extensions: Gold production and exploration in the Massif Central, France.

132 Highland Valley
Mining and processing operations at one of North America’s most efficient copper producers.

141 B.C. Coal
A brief overview of coal mining operations in this western Canadian province.

MARCH 1991

142 Balmer Mine
This open pit mine operated by Westar Mining is one of British Columbia’s major coal exporters to world markets.

155 Ontario Gold
Ed Schiller asks - Jill northwest Ontario be Canada's hot gold region in 1991.

T58 Exploration Drill Rigs
Geoff Pearse reviews the rigs available for both surface and underground exploration drilling and looks at rods, bits and items used in surveying the holes.

167 The Stikine Arch
Linda Thorstad reviews the "State of the Arch" - British Columbia’s scene of current gold exploration.

MARCH 1991

JANUARY 1991

1 Numerical simulation of time-dependant methane flow
G. Ediz and J. S. Edwards

17 Study of dynamic models for coal gas dynamics (pat 1)
Sun Peide

27 Numerical simulation of rock bursts
W. Müller

43 An interactive microcomputer application for ore grade interpolation
A. Wright

53 Size of stockpile: An equipment breakdown analysis approach for a case study
S. Majumder and R. K. Mohanty

67 Relating drilling parameters at the bit-rock interface: theoretical and field studies
T. Sinkala

79 Improving hole quality by automatic control of the drilling process: theoretical and field studies
T. Sinkala

89 An investigation of water flow paths and tracing techniques undertaken at Littleton Colliery
J. M. Eyre

97 Correlation of mine surveys with the U. K. Ordnance Survey National Grid
D. J. Hodges

MARCH 1991

113 Investigation of pillar failure in the Emswati Coal Mine, Swaziland
P. S. Mokgokong

127 An empirical study of heat flow temperature rise in bord-and-pillar workings in India
D. C. Panigrahi, M. L. Gupta and S. P. Banerjee

137 Analysis of head loss gradients using the power law description of air flow
P. C. Sudhakar, S. Bandopadhyay and F. J. Skudrzyk

145 An analytical approach to evaluation of the operational effectiveness of continuous mining systems
C. Topuz and C. Duan

157 Vibration control in an opencast mine based on improved blast vibration predictors
P. Pal Roy

167 Effects of some blast design parameters on ground vibrations at short scaled distances
S. A. Tqieddin and J. R. Brinkmann

179 Blast design to improve fragmentation in a mismatched combination of drill diameter and depth in beded rock
M. M. Singh, R. M. Singh and R. N. Gupta

187 Prediction of area of influence created by mine groundwater pumping: A case study from India
S. Majumdar and N. S. Sundaram

193 The origins of methane
J. S. Edwards and S. Durucan

çimento sanayiinde üç çeyrek asırlık bir ömür...

çimento tiplerimiz

- PC 325 (Portland Çimento)... Her tur inşaatı kullanlabilir
- KIÇ 325 (Katkılı Portland Çimento)... Her tur inşatta kullanlabilen ekonomik çimento
- ÇO 400... Normal çimentoya oranla dayanımı yüksek çimento
- ÇO 500... Dayanımı yüksek çimento
- BS 12-1978... İngiliz standartlarına uygun dayanımı yüksek çimento
- ASTM Tip 2... Amerikan standartlarına uygun orta dereceli sülfati sulara dayanımı yüksek çimento
- ASTM Tip 5... Yüksek sülfati sulara dayanımı çimento
