Süreli Yayınlar

CIM Bulletin

MAY 1991

27 Environmental management at Namew Lake; W. W. Fraser

33 Stope development for raise mining at the Namew Lake Mine; D. Madsen, A. Moss, B. Salamandra and D. Etienne

40 Asbestos in asphalt; M. Cossette and V. H. Trans

44 Ground Support used in Ontario Mines; R. J. Barclay and M. P. Kat

49 Theoretical estimation of in situ bulk density of coal; G. Grant Smith

53 Technology at the forefront of percussive rock-drilling operations; Lars Liljeblad

JUNE 1991

41 Ventilation strategy and unique air conditioning at Inco Limited; J. S. Stachulak

46 Geostatistical determination of sample variances in the sampling of broken gold ores; D. Francois-Bongarçon

119 Non-ferrous pyrometallurgy; J. G. Peacy

125 Innovations in ferrous pyrometallurgy-a Canadian perspective; Robert Lee

132 Carol pellet quality - a decade in review; S. T. Vessey, J. Staples, D. Pearcey and V. Hegde

138 Fluxed pellet production at Minntac: an overview; R. D. Potts

143 Dissolution of zinc shot in electrogalvanizing solutions; P. L. Claessens, C. Bowen and S. Bélisle

149 Basic theory, recent history and preliminary economics of three-phase AC plasma reactor/furnaces; W. G. Brown

JULY 1991

25 Lithological interpretation based on monitored drilling performance parameters; M. D. Pollit, J. Peck, and M. J. Scoble

30 Geostatistical ore reserve estimation at the Lac Knife graphite deposit, Esmanville Township, Quebec; Marc Lavigne

36 Celesthe in Canada; P. R. A. Andrews and R. K. Collings

36 The effects of torque-tension relations-hipson roof bolt systems; S. C. Tadolini

45 Distribution expérimentale des contraintes le long d’ancrages scellés dans un massif rocheux soumis à des charges de tensionnement; B. Benmokrane et G. Ballivy

35 Evaluation of wood packwall supports; T. M. Barczak

85 Use of centrifuge models to study simulated blast loadings on backfills; G. N. Nnadiand R. J. Mitchell

64 Numerical modelling as a tool in stope design; R. Pakalnis, D. Tenney and B. Lang

78 A study of the behaviour of tubing when injected into molten steel; M. Giavani

45
Industrial Minerals

JUNE 1991

19 Annual Report Highlights
23 Spain's minerals Mixed fortunes
49 Speciality clays Market niches taken by unique properties
61 The future for foundry casting Abstracts and biographies
69 Chlor-alkali. The end of the cycle?
77 Industrial minerals in Bolivia

JULY 1991

19 Natural versus refined sulphur

JUNE 1991

A breath of Frasch air
Glass raw materials Aspects of quality, quantity, and prices
Lithium minerals review 1990
FGD and chemical gypsum Waste product or commercial resource?

AUGUST 1991

17 India- A treasure trove of minerals Lifting the lid on exports?
35 Refractories in the glass industry Speciality products dominate

Institution of Mining and Metalurgy

MAY - AUGUST 1991

A1 High-temperature mine climate simulation model for predicting the effect of mine fire
G. Danko and P. Mousset-Jones

A59 Earthing practice in metalliferous mining-results of study at Mount Isa mine, Queensland, Australia
G. F. Shannon et al.

A66 Three-dimensional modelling of fill drainage in mine stopes
W. H. Traves and L. T. Isaacs

A73 Outline of mining law of England, Scotland and Wales
R. M. Honey

A85 Effect of mechanical and physical properties on dust-producing characteristics of rocks from Zonguldak coal basin, Turkey
Tevfik Güyagüler

A89 Tunnelling in a changing world
C. J. Kirkland

A92 Report of proceedings
Compiled by G. E. Pearse

International Journal of Mineral Processing

JULY 1991

1 The role of inorganic and organic reagents in the flotation separation of rare-earth ore
Prodip and D. W. Fuerstenau

23 Flotation of oxidized lead minerals with derivatives of 2-mercaptobenzothiazole. Part 1 chemical equilibria in the system 6-methyl - 2- mercaptobenzothiazole-lead salts
P. Nowak

45 Is the cassiterite contained in complex sulphide polymetallic ore recoverable?
R. Houot

59 Energy consumption and product size distributions in choke-fed, high-compression roll mills
D. W. Fuerstenau

81 Testing abrasive wear in mineral comminution
S. F. Scieszka and R. K' Dukiewicz

111 Influence of wettability on the aggregation of fine minerals
J. Skvarla and S. Kmet

133 Feasability of a Thiobacillus ferrooxidans bacterial leaching of a chemically preleached chalcoprite

147 Effect of phenol and resorcinol on leaching of ilmenite with HCl-CH₃OH and HCl-C₂H₅CH solutions
L. Gárin, L. Tiirker

International Journal of Surface Mining and Reclamation

JUNE 1991

55 Fragmentation analysis using the photographic method
George E. Exadaktylos & Charalambos E. Tsoutrelis

65 Development of a preliminary rock mass classification scheme for near-surface excavation
H. I. Inyang

75 An application of expert systems in geotechnical risk assessment for surface coal mine design
B. Denby & M. S. Kizil

83 Air pollution problems in an Indian open-cast coal mining complex: A case study
B. B. Dhar, A. Jamal & S. Ratan

Mining Engineering

JULY 1991

721 Mechanical mine development systems at the Stillwater Mine
Chérie M. Tilley

724 Stillwater Mining Co.’s precious metals smelter: from pilot to production
Gregg J. Hodges, Greg K. Roset, Jan W. Matousek and Paul J. Marcantoni

728 What it’s worth: A review of mineral royalty information
H. Lyn Bourne

732 Workshop attendees compare ore modeling and mine planning software systems
Betty Gibbs and Stephen A. Krajewski

740 Boron: A review of 1990 activities
James C. Norman

741 Potash: A review of 1990 activities
J. Searls

AUGUST 1991

1027 Microcomputer analysis aids continuous mining productivity at Tanoma
Scott G. Britton

1031 In situ copper mining at Santa Cruz: A project update
Tim O’Neil

1035 Building a university and center for energy in Sumatra, Indonesia
Tony Szwilski

1038 Why oppose NASA’s moon mining plans
Earl C. Herkenhoff

1039 Space mining: Boondoggle or the next gold rush
Richard E. Gertsch and Gregg E. Maryniak

1051 Cross borehole seismic tomography applications to mineral development
R. W. Davis and W. E. Heinrichs

1057 Applications of the seismic interactive interpretation workstation for the coal industry
L. M. Gochioco

1062 Engineering to reduce the cost of roof support in a coal mine experiencing complex ground control problems
A. W. KHair and S.S. Peng
SEPTEMBER 1991

1121 Pressure oxidation at FirstMiss Gold’s Getchell Mine
Dale C. Matthews and Michael S. Henson

1124 Design considerations of a carbon-in-leach circuit at Newmont Gold
K. Chandrasekaran and R. E. Off

1128 Particle size monitoring improves grind and aids throughput at Golden Sunlight Mines
G. B. Amicucci and V. G. Loftus

1131 Vat leaching: Historic gold processing technique again viable
Louis W. Cope

1159 Groundwater restoration in mined areas
J. E. Garlanger and R. K. Shrestha

1165 Stratabound lead-zinc deposits of the central Xicheng district, southeastern Gansu province, China
R. B. Cook, W. Anbin and S. Chunhui

1170 DISCUSSION: Quantitative vibration evaluation of modified rock drill handles
£ M. De Souza and T. N. Moore

Mining Magazine

JULY 1991

58 Highland In-Situ Leach Mine
Power Resources Inc. maintains an annual production of 1 Mlb U₃O₈ from the Highland Project in Wyoming, one of the largest commercial in-situ groundwater leach uranium mines in the world.

11 Canadian Industrial Minerals
Michel Prud’homme discusses the important role of industrial minerals in the Canadian economy, with special regard to exports to the U.S. and offshore markets.

65 Raiseboring No. 4 Shaft at Kloof
The raiseboring of large diameter shafts has been accepted by most South African mining houses as a time-saving and cost effective method of shaft construction. Details are given of one shaft which proved to be an interesting challenge.

81 Truck Scheduling
How to maximize load and haul efficiencies - Geoff Pearse describes the various truck scheduling systems on offer.

AUGUST 1991

27 Coalbed Methane
The energy potential of methane contained in coal-bearing strata is enormous: reservoir engineering techniques can turn methane safety hazards to economic account.

87 Witwatersrand Borehole Database
In exploration terms, the Wits Basin is mature but by no means exhausted. Historic borehole information has been compiled into a database.
