Süreli Yayınlar 1987

Mining Magazine

JANUARY 1987

7 Panorama
Ore pretreatment at McLaughlin mine; Ffos opencast coal mine, South Wales; Developments at Magma Copper, Arizona; Expansion of Gebeit gold mine, Sudan.

20 Charcas Mine
Industrial Mineral Mexico’s Charcas underground copper-lead-zinc mine has recently sunk a new shaft, increased production and built a new concentrator.

28 Butterwell
This important U.K. opencast coal producer recently celebrated its tenth anniversary; operations at the mine are described.

40 Heap leaching
Recovering gold by heap leaching techniques is attracting increased interest. The author discusses a means of enhancing leaching rates.

46 Bucket Wheels in New Zealand
Economic advantages have resulted from the recent introduction to iron sands recovery of a continuous bucket wheel mining operation.

51 Mining Survey

FEBRUARY 1987

108 Panorama
Demonstration coal gasification plant in FRG; Gold mining in Bolivia; U.S. report foresees increased interest in seafloor minerals; Mineral survey of UAE.

120 Finsch Mine
South Africa’s largest diamond producer is currently preparing to transfer its mining operations from openpit to underground.

128 Haul Trucks
The latest designs of trucks from all the principal manufacturers are reviewed.

140 India’s Mineral Plans
India is now well into its seventh Five-Year Plan. The targets aimed at by the mining industry for 1990 are discussed.

144 Materials for Comminution
Materials used for consumable wear parts are discussed, special reference being made to alloyed white cast iron.

150 Novo Astro
Exploration in Amapa Territory, Brazil, should result in a new hard rock gold mine.

MARCH 1987

180 Panorama
China’s Antaibao coal project on-stream later this year; Australian diamond exploration; Further moves on Saindak copper project, Pakistan; Utilization of low quality coal in R.S.A. extends reserves; Update on Guyana’s Ormai gold prospect.

198 Real de Angeles
Mexico’s successful large openpit silver mine, where the shareholders took one more look at the project before dissolving the company.

209 Shaft sinking
The author reviews methods for predicting and controlling problem ground conditions.

219 Tungsten
In oversupply, price competition has reached extremes, forcing mine closures.

222 Microcomputer software
A general introduction to low cost software for mining and mineral exploration.

226 3-D computer modelling
Integrated, comprehensive modelling facilities assist in interpretation of geology and geostatistics, and facilitate mine planning.

233 Computer file
The first in a new series of quarterly reviews of computer technology.

47
Mining Engineering

JANUARY 1987

13 Applied drilling and blasting techniques for blast casting at Trapper mine - potential to save on overburden removal
Paul D. Dupree

16 Vernal Phosphate completes expansions and slurry pipeline without missing any concentrate shipments
J.R. Weber, R.D. Haddenham, and J.H. Bailey

22 How acid rain legislation might change coal use patterns
Earl L. Rau

23 Discussion of dangers involved when transporting and storing unconsolidated materials
David A. Zeeger

26 Technology news:
o Caterpillar introduces D8N tractor and improved D9N and DION
o Komatsu announces 11 new dozers and seven new wheel loaders

33 Lime substitutes for the treatment of acid mine drainage
G.W. Heunisch

37 Mineral resource objectives of the Continental Scientific Drilling Committee’s dedicated drill holes and add-on science to solve mineral deposit problems
J.J. Eidel and C. Meyer

41 Manufactured diamonds and enhanced mining tool performance
D.K. Sitter

44 Disintegration of hard rocks by the electrohydrodynamic method
J. Res and A. Chattopadhyay

47 DISCUSSION: Lemniscate-guided powered roof supports adapted for proper operation with the roof on longwall faces
J.B. Gwiazda

103 New approaches detailed for gold exploration in the Canadian shield
H.R. Butler, A.T. MacGibbon, and J.F. Church

107 Mining in ancient Egypt—all for one, Pharaoh
Bob Snasshall

109 Mining, EPA, and toxic waste: Will your mining company be liable?
Peter Haller

115 Evaluation of structural properties of coal seams
A.B. Zwilski

119 In-the-wall haulage for open-pit mining
W.A. Hustrulid, B. Seegmiller, and O. Stephansson

123 Use of pink lepidolite and tourmaline in prospecting for lithium at the Boanerge lithium deposit, Goias, Brazil
W. Petruk and D.B. Sikka

127 TECHNICAL NOTE: Use of a microcomputer in the design and selection of materials hoisting systems
G.T. Lineberry and J.D. Patsey

130 DISCUSSION: On nonnegative weights of linear kriging estimation
E.Y. Baafi, Y.C. Kim, and F. Szidarovszky

MARCH 1987

170 Turbo-charged engines require special lubrication maintenance
Jerry T. Shelby

171 Entrepreneurial spirit guides development of Gardner’s Point gc’d mine in Northern California

175 Management styles and employee attitudes will change, but US mining will still need expert trade
Steve Krat

178 Aluminum—the first 100 years and a look to the future

181 Technology news:
o Cyanamid introduces flocculant line for minerals processing
o British kaolin producer adapts bucketwheel for dewatering

FEBRUARY 1987

97 Cool Water Coal Gasification: A mid-term performance assessment
Wayne N. Clark and Vernon R. Shorter

48
189 Proposed criteria for assessing subsidence damage to renewable resource lands
M.M.Singh and S.Bhattacharya

194 Use of filters and traps as a means to control diesel engine pollution in underground mines
R.Fraser, F.Breu, C.Johnson, and R.Lawrie

197 Evaluation of copper dump and heap leaching situations
J.M.Keane and C.K.Chase

200 TECHNICAL NOTE: Mine modifications for economic survival-a case study
R.L.Grayson, G.Mishra, and R.Wood

202 TECHNICAL NOTE: Thick seam mining with artificial roof laying support
J.B.Gwiazda

---

Industrial Minerals

JANUARY 1987

19 Zeolites cleaning up-From the laundry to Three Mile Island

35 Zircon-In demand as availability squeezed

47 A Broker's comment on today's charter market

52 Kuwait- A conference report

FEBRUARY 1987

21 The world magnesia industry-Smaller but fitter.... and purer!

50 US plastics-A growing mineral market

MARCH 1987

17 The world's fluorspar industry-Following the market

41 The refractories business Guidelines for survival and growth

54 Minerals in plastics-Meeting the challenge of the future

61 Innovations in potash distribution systems

---

Institution of Mining and Metallurgy

JANUARY 1987

A1 Practical rock mechanics-developments over the past 25 years.Evert Hoek

Finance for the mining industry: proceedings of October, 1986, meeting

A7 Introduction to the financing of mining projects
P.G.Nicholson

A10 Role of a mining analyst in a stockbroking firm
M.M.Wellesley-Wood

A14 Mechanics of mining analysis: (1) general scheme
K.V.Debenham

A15 Mechanics of mining analysis: (2) computerized ranking procedure for gold producers
G.Campbell

49
Al 7 What banks require to see before financing a mining project
F.D.Scott

A18 Raising finance on the London Stock Exchange
G.H.Fryer

A21 How the mining industry can use terminal markets
E.B.Arnold

A23 Musto Explorations-case study of financing of a small, high-technology mine
A. Taylor and A.J. Quinn

A29 Two case histories of fund-raising for mining-Ennex International and Clogau Gold Mines
R.E.S. Davies

A3 2 Discussion

A37 Technical note
Problem with ventilation network analysis
G.T.R.McIlroy

B1 Distribution and extent of land contaminated by arsenic and associated metals in mining regions of southwest England
P.W.Abrahams and I.Thornton

B9 Blackdome Eocene epithermal Ag-Au deposit, British Columbia, Canada-nature of ore fluids
G.Vivian et al.

B15 Regional stable isotope and fluid inclusion study of vein-type mineralization in the Broken Hill Block, New South Wales, Australia
Dong Yibao et al.

B31 Geology and geochemistry of tungsten-antimony vein mineralization on Ymers 0, East Greenland
J.L.Pedersen and H.Stendal

B37 Constitutional features, and some exploration implications, of three zinc-bearing stratiform skarns of eastern Australia
R.L.Stanton

B58 Discussion
New trends in geological concepts
C.J.Morrissey

MARCH 1987

C1 The Isasmelt lead smelting process
W.J.Errington et al.

C7 Flotation depression of chalcopyrite with thioglycolic acid
G.V.Poling and Qi Liu

C13 Recovery of nickel and cobalt from lateritic ores of Orissa, India, by selective sulphation roasting
S.B.Kanungo

C21 Design, construction, commissioning and operation of the Key Lake uranium mill
A.R.Maycock and M.G.Neven

C28 Pressure leaching of uranium ores in a calcium chloride medium with simultaneous solubilization of radium
G.P.Demopoulos

C37 Efficient utilization of complex lead-zinc sulphide raw materials-developments in the U.S.S.R.
A.P.Sychev, V.I.Maltsev and Yu.I.Sannikov

C42 Technical notes
Treatment of Qinling polymetallic gold ore
Zhao Wangsheng

C44 Chloride roasting of a complex gold ore and treatment of chloride fume for precious-metal recovery-experimental results
Deng Huahua and Li Xianguang

C46 Process for recovery of pure cobalt oxide from nickel electrolyte
Yu Desin

C49 Electrolysis of cupric and cuprous chloride solutions
D.J.Fray

C53 Discussion
Solubility products of ferric xanthates
J.K.Critchley and C.J.Hunter

JANUARY 1987

25 Design of ore pass systems for underground mines,
   D. Hambley

31 Innovative management techniques at Kiena Gold Mines Limited
   Brian A. Ferguson, Raynald O. Raoul
   R. Boissonneault and Marielle Gaudet

41 Shaft collaring through deep overburden - a novel approach,
   Michael R. Nadon and Jack J. Ayotte

46 Research into high density backfill placement methods by the Ontario Division of Inco Limited;
   D. Landriault and B. Goard

51 Reduced wear on mine car wheels in the Kirana Mine,
   J. Eric Nylund

57 New features and developments in the application of the CONTOP cyclone smelting process,
   Hermann Hilbrans, Michael Gamroth and Gerhard Melcher

57 New flow through share rules are here,
   Robert B. Parsons
